Like language, good
coding style is.

Understandable, it can
understandable, but
to read also more
difficult. Hmmmmmm.

Bad style on
top of bad
style
becomes more
and more
difficult to
read and adapt

An open book is shown from a top-down perspective, lying flat. The pages are a light cream color and show signs of age. In the center of the book, where the pages meet at the spine, a heart-shaped cutout has been made, revealing a dark background. The text 'The Good Book:' is overlaid on the right side of the image in a white, sans-serif font. A thin white vertical line is positioned to the left of the text, starting from the top of the 'B' and extending downwards. The background behind the book is dark and out of focus.
